

Our Precision Creasing Boards

Frustrated with uneven folds? Well, these creasing boards will give you a perfect fold every time. It saves time and gives you a professional consistent fold from a perfect crease.

You get all your standard card folds and more. The perfect accessory to any card maker or DIY paper craft project that requires accurate folding. Ideal for Wedding Stationery, Small Business, Card Makers, Graphic Designers and Paper Crafts.

Creaser Card Types:

Accordion / Tri Folds, Gate Folds, Square Cards, Rectangle Cards, Gift Cards, Place Cards and all standard card folds.

Crease lines can also be used to make box lids and bases, as well as measuring guides to divide A4 paper, ready for cutting.

" The card creaser saves me so much time because I no longer have to measure and hold my ruler straight, the creaser board has all the standard lines I use. The love heart is my favourite shape I emboss onto my cards "
Marie - Card Maker

All models include instructions and clear template overlays

No crease is too difficult anymore.

Standard

Deluxe

Detailed specifications are listed on back page for both models.

Easy to use

Position paper flush against edge.

Refer to clear template to select required crease line.

Using the embossing tool (#EMBT), place ball into groove. Apply pressure starting from the top and drawing the tool towards you until complete.

Vary pressure according to paper thickness.

Fold away from the groove and you are finished
